HOST NOTES:

Josh was born and raised in Ft. Lauderdale, FL. When he turned 16 he drove to Mississippi to live with his aunt and uncle to get out of the big city. He attended Mississippi State University where he majored in Forestry and Forest Biometrics. He has worked professionally in natural resource management in North Carolina, on the MS Gulf Coast, the MS Delta and in East-Central MS. Josh married his high school sweetheart Sarah in 2002. They have 2 children, a girl and a boy. Sarah teaches middle school science and is a softball coach at French camp Academy. Josh feels that by serving with CADF, he has found a good niche that fits his skills / passions and is challenging at the same time.
